

# Syilx Knowledge Circle

## WELLNESS DATA GOVERNANCE

——  
MARCH 25, 2021 | 9:00 AM TO 12:00 PM | VIRTUAL MEETING

**Do you want to be a part of a dialogue on Syilx responsibility of protecting and sharing knowledge?**

This is the second Syilx Knowledge Circle gathering, and will build on the first gathering and ask participants to share their dreams for Syilx data sovereignty.

### What is Data Governance?

It is what Syilx peoples have done from time immemorial – gathered, stored, protected and shared their knowledge. One of the main aspects of Syilx data governance has been protection. Careful consideration was given to who should be trained as the safe keeper of certain knowledge, and how and when the knowledge was shared.

### Who Should Attend?

- Open to all Syilx Okanagan Nation members & Knowledge Keepers who want to share and learn about data sovereignty.

### To Register:

See the link attached.
